

## GUTTA PERCHA TUBING.

THE value of Gutta Percha Tubing for the Conveyance of Water, is no longer a matter of doubt. Experience has proved its adaptation and superiority to metal pipes, and that it is entirely free from those corrosive properties which have proved so highly injurious in the use of lead pipes.

Many inquiries having been made as to the *durability* of Gutta Percha Tubing, the Gutta Percha Company have pleasure in requesting attention to the following letter

FROM SIR RAYMOND JARVIS, BART.  
OF VENTNOR, ISLE OF WIGHT.

(Copy.)

"Ventnor, March 10th, 1852.

"GENTLEMEN,—In reply to your letter, received this morning, respecting the Gutta Percha Tubing for Pump Service, I can state with much satisfaction it answers perfectly. Many Builders and other persons have lately examined it, and there is not the least apparent difference since the first laying down, now several years;\* and I am informed that it is to be adopted generally in the Houses that are being erected here: building going on to a considerable extent.

"I am, Gentlemen, your obedient Servant,

"R. JARVIS.

"P.S.—The only difficulty experienced was in fixing the tube to the pump-barrel. The plumber employed, being averse to the job, did not properly secure it, and air got into the tube: otherwise, carefully arranged, there is no question it supersedes lead or any kind of metal pipes.

"R. J.

"To the Gutta Percha Company, 18, Wharf-road, City-road, London."

\* Lead-piping is frequently eaten away by the Isle of Wight water in less than a couple of years.

The Company's Illustrated Circulars, containing copious information relative to the various applications of Gutta Percha, together with full directions to Plumbers for joining tubes, lining tanks, &c. will be forwarded (post-free) on receipt of three postage stamps.

THE GUTTA PERCHA COMPANY, PATENTEES, 18, WHARF-ROAD, CITY-ROAD, LONDON.
